American Journal of Physiology: Regulatory, Integrative and Comparative Physiology

No. 1. JANUARY 1989

Thermal acclimation induces adaptive changes in subcellular structure of fish skeletal muscle
S. Egginton and B. D. Sidell R1

Effects of atrial natriuretic factor on isolated arteries and perfused organs of trout
K. R. Olson and K. D. Meisheri R10

Morphological dynamics of ureteral transport. I. Shape and volume of constituent urine fractions
L. Ohlson R19

Morphological dynamics of ureteral transport. II. Peristaltic patterns in relation to flow rate
L. Ohlson R29

Characteristics of fever and acute-phase response induced in rabbits by IL-1 and TNF
A. Morimoto, Y. Sakata, T. Watanabe, and N. Murakami R35

Brown fat thermogenesis during hibernation and arousal in Richardson's ground squirrel
R. E. Milner, L. C. H. Wang, and P. Trayhurn R42

Differential effects of cooling in hibernator and nonhibernator cells: Na permeation
Z. Zhou and J. S. Willis R49

Gastric emptying changes are neither necessary nor sufficient for CCK-induced satiety
K. L. Conover, S. M. Collins, and H. P. Weingarten R56

Evolution of mammalian endothermic metabolism: mitochondrial activity and cell composition
A. J. Hulbert and P. L. Else R63

Differences in perinatal NaCl exposure alters blood pressure levels of adult rats
R. J. Contreras R70

Cerebral oxygenation and blood flow in infant and young adult rats
N. R. Kreisman, J. E. Olson, D. S. Horne, and D. Holtzman R78

Proximal tubule response in aldosterone escape
J. M. Gonzalez-Campoy, J. Kachelski, J. C. Burnett, Jr., J. C. Romero, J. P. Granger, and F. G. Knox R86

Breathing and upper airway CO_2 in reptiles: role of the nasal and vomeronasal systems
E. L. Coates and G. O. Ballam R91

Systemic vascular autoregulation amplifies pressor responses to vasoconstrictor agents
P. J. Metting, P. M. Stein, B. A. Stoos, K. A. Kostrzewski, and S. L. Britton R98

Bright morning light advances the human circadian system without affecting NREM sleep homeostasis
D. J. Dijk, D. G. M. Beersma, S. Daan, and A. J. Lewy R106

Paraventricular stimulation with glutamate elicits bradycardia and pituitary responses
D. N. Darlington, M. Miyamoto, L. C. Keil, and M. F. Dallman R112

Two-phase change of sympathetic rhythms in brain ischemia, Cushing reaction, and asphyxia
B. Kocsis, L. Fedina, and E. Pasztor R120

Intracranial ethanol and ambient anoxia elicit selection of cooler water by goldfish
L. I. Crawshaw, L. P. Wollmuth, and C. S. O'Connor R133

Antidiuretic and pressor actions of vasopressin in age-dependent DOCA-salt hypertension
J. Zicha, J. Kuneš, M. Lébl, I. Pohlová, J. Slaninová, and J. Jelínek R138

Rare fatty acids in brown fat are substrates for thermogenesis during arousal from hibernation
C. Carneheim, B. Cannon, and J. Nedergaard R146

Adrenal and sympathetic catecholamines in exercising rats
A. J. W. Scheurink, A. B. Steffens, H. Bouritius, G. H. Dreteler, R. Bruntink, R. Remie, and J. Zaagsma R155

Sympathoadrenal influence on glucose, FFA, and insulin levels in exercising rats
A. J. W. Scheurink, A. B. Steffens, H. Bouritius, G. H. Dreteler, R. Bruntink, R. Remie, and J. Zaagsma R161

Experience affects exercise-induced changes in catecholamines, glucose, and FFA
A. J. W. Scheurink, A. B. Steffens, G. H. Dreteler, L. Benthem, and R. Bruntink R169

Hyperprolactinemia prevents short photoperiod-induced changes in brown fat
K. S. Kott, B. J. Moore, L. Fournier, and B. A. Horwitz R174

Effects of bombesin on food intake and gastric acid secretion in cats
A. Bado, M. J. M. Lewin, and M. Dubrasquet R181

Direct cardiac stimulation by arginine vasotocin in bullfrogs (*Rana catesbeiana*)
J. S. K. Sham, W. H. Sawyer, and P. K. T. Pang R187

Cardiovascular responses to intrathecal vasopressin in conscious and anesthesized rats
A. Martinez-Arizala, J. W. Holaday, and J. B. Long R193

Skeletal muscle calcium uptake in bacteremic rats
M. V. Westfall and M. M. Sayeed R201

Behavioral and hormonal influence on blood volume restitution after hemorrhage in swine
D. E. Carlson, E. J. DeMaria, R. W. Campbell, and D. S. Gann R207

Central action of acidic fibroblast growth factor in feeding regulation
K. Hanai, Y. Oomura, Y. Kai, K. Nishikawa, N. Shimizu, H. Morita, and C. R. Plata-Salamán R217

Adrenergic receptors on cerebral microvessels: pericyte contribution
R. M. Elfont, P. R. Sundaresan, and C. D. Sladek R224

Contribution of neurogenic mechanisms to control of intrinsic heart rate
B. H. Machado and M. J. Brody R231

Effect of ambient temperature on respiratory quotient of lean and obese Zucker rats
R. Refinetti R236

Relationship between respiratory state and intracardiac shunts in turtles
F. N. White, J. W. Hicks, and A. Ishimatsu R240

Release of hypothalamic cholecystokinin in cats: effects of nutrient and volume loading
R. R. Schick, T. L. Yaksh, D. R. Roddy, and V. L. W. Go R248

Retinyl esters in the vertebrate neuroretina
K. A. Rodriguez and A. T. C. Tsin R255

Biomechanical and biochemical changes in lumbar vertebrae of rapidly growing rats
G. J. Salem, R. F. Zernicke, A. C. Vailas, and D. A. Martinez R259

Brain stem mechanisms and the inhibition of angiotensin-induced drinking
L. E. Ohman and A. K. Johnson R264

Osmoregulation of vasopressin secretion and thirst during the estrous cycle of pigs
C. Rollin, J. Kucharczyk, J. Lemoine, D. Bichet, and B. K. Tsang R270

Prolactin stimulates food intake in a dose-dependent manner
T. Gerardo-Gettens, B. J. Moore, J. S. Stern, and B. A. Horwitz R276

RAPID COMMUNICATIONS

Sleep patterns in the genetically obese Zucker rat: effect of acarbose treatment
J. Danguir R281

Atrial peptide potentiates renal responses to volume expansion in conscious dogs
C. H. Metzler and D. J. Ramsay R284

ANNOUNCEMENTS

R290

No. 2. FEBRUARY 1989

Clearance and urinary excretion of vasopressin in conscious dogs
J. L. Sondeen and J. R. Claybaugh R291

Renal sympathetic nerve activity and natriuresis during water immersion in conscious dogs
K. Miki, Y. Hayashida, S. Sagawa, and K. Shiraki R299

Lateral parabrachial lesions attenuate ingestive effects of area postrema lesions
G. L. Edwards and R. C. Ritter R306

Ca^{2+}-stimulated ATPase activities in the gill of the eel: interactions of Mg^{2+} ions
R. Naon and N. Mayer-Gostan R313

Tonic influences from the rostral medulla affect sympathetic nerves differentially
C. P. Yardley, R. D. Stein, and L. C. Weaver R323

Regional hemodynamic effects of calcitonin gene-related peptide
S. M. Gardiner, A. M. Compton, and T. Bennett R332

Vasopressin and ANG II in the control of ACTH secretion and arterial and atrial pressures
V. L. Brooks R339

Muscular contraction stimulates posterior hypothalamic neurons
T. G. Waldrop and R. W. Stremel R348

Coronary autoregulation and metabolism in hypothermic rat and ground squirrel hearts
R. F. Burlington, M. S. Dean, and S. B. Jones R357

Stereospecific feeding modulation by endogenous organic acid γ-lactone in rats
T. Sakata, K. Terada, K. Arase, K. Fujimoto, Y. Oomura, N. Okukado, and O. Uchikawa R366

Anesthetic effects on tonic and reflex renal sympathetic nerve activity in awake cats
K. Matsukawa and I. Ninomiya R371

Processing of pulmonary afferent input patterns by respiratory I-β neurons
J. Bajić, E. J. Zuperku, and F. A. Hopp R379

Activation by saccharides of a cation-selective pathway on canine lingual epithelium
S. A. Simon, P. Labarca, and R. Robb R394

Energy expenditure during stress ulcer formation in vulnerable rats
D. Greenberg and S. H. Ackerman R403

Carotid sinus baroreflex control of β-endorphin release in anesthetized dogs
M. J. Brunner, K. E. Wehberg, J. C. Williams, and C. A. Cahill R408

Role of renal sympathetic nerves in renin inhibition by elevated left atrial pressure
D. A. Scheuer, T. N. Thrasher, and D. J. Ramsay R413

Calcitonin gene-related peptide increases cAMP, tension, and rate in rat atria
X. Wang and R. R. Fiscus R421

Posttranslational processing of opioid pro-opiomelanocortin products in piglets
I. R. Moss, J. G. Inman, and C. A. Slaughter R429

Peripheral and central consequences of immobilization stress in genetically obese Zucker rats
F. Chaouloff, D. Laude, D. Merino, B. Serrurier, and J. L. Elghozi R435

Blood-brain barrier disruption using mannitol: time course and electron microscopy studies
W. C. Cosolo, P. Martinello, W. J. Louis, and N. Christophidis R443

Neurons of rostral ventrolateral medulla mediate somatic pressor reflex
R. L. Stornetta, S. F. Morrison, D. A. Ruggiero, and D. J. Reis R448

LiCl and CCK inhibit gastric emptying and feeding and stimulate OT secretion in rats
M. J. McCann, J. G. Verbalis, and E. M. Stricker R463

Clearance function of type C receptors of atrial natriuretic factor in rats
F. A. Almeida, M. Suzuki, R. M. Scarborough, J. A. Lewicki, and T. Maack R469

Sleep changes in emperor penguins during fasting
G. Dewasmes, C. Buchet, A. Geloen, and Y. Le Maho R476

Neuromodulation of intestinal transport in the suckling mouse
H. V. Carey and H. J. Cooke R481

Hypertension and alterations in central catecholamines after preoptic recess lesions
J. W. Van Huysse and S. L. Bealer R487

Adrenalectomy and response to corticosterone and MSH in the genetically obese yellow mouse
H. Shimizu, N. S. Shargill, and G. A. Bray R494

Structure and concentrating ability in the avian kidney
D. L. Goldstein and E. J. Braun R501

Amiloride effect on diurnal cyclic Na and K excretion in rats
P. L. Dalton and L. Rabinowitz R510

Lack of caloric regulation in rats during short-term feeding
A. H. Swiergiel and M. Cabanac R518

Chronic CEI alters effect of low Na^+ diet in normal and coarcted pups. I. BP, renin, and GFR
S. P. Bagby, and E. Fuchs R523

Chronic CEI alters effect of low Na diet in normal and coarcted pups. II. Na and H_2O balance
S. P. Bagby and E. Fuchs R531

Nocturnal patterns of macronutrient intake in freely feeding and food-deprived rats
D. L. Tempel, G. Shor-Posner, D. Dwyer, and S. F. Leibowitz R541

Carotid baroreflex resetting during drug-induced arterial pressure changes in humans
J. M. Fritsch, R. F. Rea, and D. L. Eckberg R549

Stress can enhance the renin response to reduced renal prefusion pressure
J. P. Porter R554

In vitro diencephalic neuronal thermosensitivity in normotensive and hypertensive rats
K. A. Travis and J. A. Boulant R560
